

| SCALE | PROBABILITY | +/- IMPACT ON PROJECT OBJECTIVES |                  |  |
|-------|-------------|----------------------------------|------------------|--|
|       |             | TIME                             | COST             | QUALITY/PERFORMANCE                              |
| VHI   | 71-99%      | Greater than <d>                 | Greater than <s> | Very significant impact on overall functionality |
| HI    | 51-70%      | <c> to <d>                       | <r> to <s>       | Significant impact on overall functionality      |
| MED   | 31-50%      | <b> to <c>                       | <q> to <r>       | Some impact in key functional areas              |
| LO    | 11-30%      | <a> to <b>                       | <p> to <q>       | Minor impact on overall functionality            |
| VLO   | 1-10%       | Less than <a>                    | Less than <p>    | Minor impact on secondary functions              |
| NIL   | <1%         | No change                        | No change        | No change in functionality                       |
